

Folding Carton Board

KRAFTPAK®

Kraftpak sets the standard for unbleached, uncoated virgin paperboard. It is a low density, high yield product which provides outstanding strength and durability while using less fiber. The unique two-ply design offers a consistent surface with an attractive natural brown appearance and good printability. Kraftpak is highly versatile and ideal for a wide variety of packaging applications.

TYPICAL USES

- Packaging Applications
- Health & Beauty
- Food Service, Carry-out
- Sporting Goods
- Wines & Spirits
- Dry & Prepared Food
- Automotive
- Gift Boxes
- Beverage Carriers

Building & Industrial

- Filter Frames
- Slip Sheets, Partitions

MANUFACTURING LOCATION

Charleston, SC

BENEFITS

Excellent stiffness, tear and internal strength properties make for extremely durable packaging. This translates into enhanced product protection and reduced damage.

Using less fiber for a given caliper and an output that generates more cartons per ton provides our customer with a very efficient and cost-effective packaging option.

Caliper, basis weight and moisture uniformity promote excellent performance and optimize productivity. Controlled curl and coefficient of friction ensure consistent handling on automated equipment.

Outstanding moisture resistance and wet durability make Kraftpak the ideal substrate for many challenging packaging applications.

State-of-the-art stock preparation system yields a clean, uniform, natural appearance. Kraftpak top surface (L*a*b) targets (60.0, 7.0, 18.0).

Source reduction (low density-high strength allows significant package weight reduction), biodegradable and recyclable, renewable resource and traceable fibers

ISO 9001:2008

SFI® Certified Sourcing and Chain of Custody

PEFC™ Chain of Custody

FSC® Chain of Custody

Compliant with the Lacey Act and EUTR (European Union

Timber Regulations)

EN-13432

Compliance with USFDA 21 CFR §176.170 and 21 CFR §176.180
Allergen free

US California Proposition 65 Compliant
CONEG Model Heavy Metal and EC/94/62 Article II Compliant
Elemental Chlorine Free (ECF) Unbleached fiber
RoHS Compliant
Toy safety standards ASTM F 963 and EN71-3

Unbleached paperboard

Uncoated, unbleached Kraft paperboard
